

INSTRUCTIONS: There are heaps of ways to save water around the house, and this crossword will test your knowledge! For each clue, write the word in the corresponding boxes.

Across

1. Scrape off your plates instead of doing this before they go in the dishwasher
2. When you turn this on, water comes out!
3. Water that falls through the sky from clouds
4. This cleans your plates and cutlery (but only use it when its full)
5. This will make your water boiling hot (but only heat up the water you need to use)
6. This flows out of our taps, safe and clean to drink

Down

1. These connect all of the sinks and taps in your house
2. Most of these have a half flush and a full flush option
3. To help the plants that grow here, only water this in cool parts of the day
4. When this happens to a pipe, water drips out
5. This will get you clean, and it only takes four minutes
6. Use one of these to sweep your driveway instead of using a hose
7. You should always turn the tap off when you brush these
